Under instruction from the International Banks headquarters, on the 29th of May 2019, the regional director of the International Bank visited RevoluPAY headquarters in Barcelona to commence preparations for the opening of bank accounts to be ultimately utilized for the remittance flows through RevoluPAY. The Company is now awaiting the date of a final visit by the international compliance division of the Bank. RevoluPAY New “Payment Request” Functionality

Over the past 6 months, RevoluPAY has received requests from numerous Expedia and Booking Holdings promoted properties who use the RevoluPAY VCC Card cashing system, for these property owners to be able to solicit client payments at a distance using the RevoluPAY app. Many of the aforementioned properties operate proprietary websites and, carry-out direct marketing to guests, which invariably result in a need for the properties to solicit “Payment Requests” worldwide. The proposed system allows the property owners to generate a digital invoice through the RevoluPAY Merchant App and, send this invoice directly through the RevoluPAY app to a phone contact or, via: sms, email, social media or instant messenger platforms. The receiver would then click the invoice and make the payment in seconds with their phones RevoluPAY app. RevoluPAY programmers have now concluded a final working version of the “Payment Request” add-on, which will be deployed in the next RevoluPAY Merchant App update.
